PROFESSIONAL SUMMARY

Motivated Applied Sciences student in the Artificial Intelligence track, specialising in Enterprise Solutions. Strong interest in software development, data engineering and building generative AI and AI chatbots. Eager to grow as an IT professional who creates meaningful solutions through innovation and teamwork.

EDUCATION

Diploma in Applied Sciences
Thomas More Geel
September 2024 - Present

Artificial Intelligence track, with Enterprise Solutions as my elective specialisation.

Diploma of Secondary Education
Technical Track – IT & Development
Go! Atheneum Malle

September 2017 - June 2024

Primary Education Certificate
Elementary School Belgium
September 2012 - June 2017

TECHNICAL SKILLS

Python, C#, Java, JavaScript, .NET, React, PHP, MongoDB, HTML, CSS, Docker, Cisco, SAP, Qlik Sense, Microsoft 365 low-code, BPMN

WORK EXPERIENCE

Retail Sales Associate
Local Supermarket
February 2024 - Present

A small convenience store with a close community that I am part of. This work has made me more social and taught me to communicate with customers in a professional way.

Dishwasher & Dessert Preparation
Local Brasserie
March 2021 - September 2026

Washed dishes and made desserts as sous-chef. It taught me that discipline is key and creativity is always welcome.

HARD SKILLS I'M LEARNING THIS YEAR

Data & BI: ETL pipelines, data modelling, Qlik Sense
Enterprise & AI: BPMN, SAP, Microsoft 365, agentic AI
Security: OWASP Top 10, web pentesting & reporting

PROJECTS

- Vrcade: a full-stack website for a fictional VR arcade
- Quickcode: a web app to learn coding through battles
- 't Snuffeltje: my earliest work, a blog for a dog groomer

SOFT SKILLS

Presenting & Pitching: As an extrovert I talk to people easily and present projects clearly and with confidence.
Empathy & Client Focus: I enjoy explaining how things work to people without a technical background.
Analysis & Problem Solving: I analyse business processes and customer needs and justify my choices clearly.
Teamwork & Ownership: I take initiative in a team and take responsibility when something is not right or not on time.
