## PROFESSIONAL SUMMARY

Motivated Applied Sciences student with a strong interest in software development, embedded systems, and full-stack web applications. Eager to grow and contribute as an IT professional who creates meaningful solutions through technology, focusing on innovation and collaborative teamwork.

## EDUCATION

### Diploma in Applied Sciences

Thomas More Geel  
September 2024 - Present

Where I am now. This is how far I have gotten, studying the arts of development and AI

### Diploma of Secondary Education

Technical Track – IT & Development  
Go! Atheneum Malle  
September 2017 - June 2024

### Primary Education Certificate

Elementary School Belgium  
September 2012 - June 2017

## TECHNICAL SKILLS

Python, C#, Java, JavaScript, .NET,  
React, PHP, MongoDB, HTML,  
CSS, Docker, Cisco, Teamwork,  
Presentation.

## WORK EXPERIENCE

### Retail Sales Associate

Local Supermarket  
February 2024 - Present

A small convenience store with a close community where I am a part of. This work has made me more social and taught me to converse in a more professional way with customers.

### Dishwasher & Dessert Preparation

Local Brasserie  
March 2021 - Present

A little restaurant where I am a dishwasher and also sous-chef where I make desserts for the customers. This job has taught me that discipline is key and that creativity is always welcome.

## PROJECTS

- Vrcade: A fullstack website of a fictional VR arcade
- Quickcode: A web application where you can learn to code in a competitive and playful way through battling.
- t'snuffeltje: my earliest work yet. A website/blog for a dog grooming company

## SOFT SKILLS

### Presenting & Pitching:

I can communicate information in a structured way and present a project clearly to others.

### Empathy & Client Focus:

I show empathy, think along with people, and can explain a project clearly to non-technical clients.

### Initiative & Teamwork:

I take initiative when needed and enjoy working in a team to build strong results step by step.
